PROFILE

I am Althaf Marikkar, a 3rd year undergraduate at the Sri Lanka Institute of Information Technology (SLIIT), specializing in Information Technology. As a passionate full-stack developer, I enjoy building efficient, user-friendly applications and continuously expanding my skills in modern web and software development. I am currently seeking an internship opportunity in full-stack development to apply my knowledge, contribute to real-world projects, and further enhance my technical expertise.

PROJECTS

Evercare

2025 - PRESENT

Elder Home Care System

- Developed an Elder Home Care System using React, Node.js, Express.js, MongoDB, and JWT for secure event and user management.
- Built and tested features with Postman, integrating HTML, CSS, JavaScript, Java, and Apache Server to ensure a seamless full-stack solution.

Crystal Planners

2024

Online Event Planning System

- Developed an Online Event Planning System using HTML, CSS, JavaScript, and Java with Apache Tomcat server.
- Implemented core features including event creation, booking, and management with a responsive and user-friendly interface.

CANAK University

2024

Online Helpdesk for University Students

- Developed an Online Help Desk System for university students using HTML, CSS, and PHP, enabling efficient issue reporting and resolution.
- Designed a user-friendly interface and implemented backend functionalities to streamline communication between students and administrators.
